

COMING IN JANUARY

Attention Cottage Grove Residents:

Effective January 1, 2010 your pickup will be changing to Veolia Environmental Services. Carts will be provided for both your garbage and recycling service. The cart with the black lid is for garbage and the cart with the yellow lid is for recycling. There can be one item too large for the cart picked up weekly with your garbage cart.

The standard cart size delivered will be 95 gallon. Anyone wishing to see the different cart sizes may do so in front of the Town Hall. Requests for different size carts must be made by December 1 by calling 1(800)248-2373. If a second size change request is made there will be a \$15.00 charge to the resident.

Your garbage will be picked up every week and your recycling will be picked up **every other week**. Please see the calendar that will be placed in your recycling cart to make sure you put your recycling material out on the appropriate week. All recycling material i.e.; paper, cardboard, aluminum, plastics etc will be put in the cart **unsorted**. Please make sure containers are rinsed out before placing them in the cart.

Appliance pickup is also included in your service. You just have to call (800) 248-2373 to arrange for the appliance of your choice to be picked up.

If you have any questions or would like to request a different size cart please call 1(800)248-2373.
